

Clouds, Aerosols, and Radiative Transfer Workshop
November 16, 2005
9:00am – 5:00pm

09:00-09:15 opening remarks

09:15-10:00 Tom Ackerman, PNNL
A comprehensive review of ground-based measurements

10:00-10:45 Tarek Zohdi, UC Berkeley
Light scattering and coupled thermal processes in particulate clouds

10:45-11:00 coffee

11:00-11:45 Graham Feingold, NOAA ETL
Small-scale aerosol-cloud interactions

11:45-01:30 lunch

01:30-02:15 Surabi Menon, Lawrence Berkeley Lab
Global scale climate effects of aerosol-cloud interactions: Past and future changes

02:15-03:00 Chris McKay, NASA Ames
Transition from Earth to Titan, challenges and goals

03:00-03:15 snacks, coffee

03:15-04:00 Henry Roe, Caltech
Titan clouds

04:00-04:45 Mate Adamkovics, UC Berkeley
Titan's aerosol haze

04:45-05:00 closing remarks
